SUMMARY

B.Tech student with strong expertise in frontend web development, specializing in React, Angular. Proficient in using HTML, CSS, SCSS, and JavaScript to create dynamic and responsive web applications. Adept at working with modern frameworks and passionate about continuous learning and problem-solving.

EXPERIENCE

Monolith Technologies | (Web Development Intern)

May 2024

- I have worked as an intern at MONOLITH Asia.
- Adaptable to challenging situations, where I have effectively collaborated in teams to complete tasks.
- I have experience in developing web applications using React and Angular frameworks.
- Possess strong web development skills in HTML, CSS, SCSS, JavaScript, and TypeScript.

Nexus Info | (Web Development Intern)

July - August 2024

- Currently, I am serving as an intern Frontend Web Developer, specializing in a React/JavaScript project.
- During the project's inception, I adeptly constructed a Sign-Up/Login Page, integrating backend API endpoints for user registration, OTP verification, and dashboard access.
- In the project's culmination, I created a portfolio for a technology company, highlighting their services. This included a feedback form with submission capability and integration of Google Photos.
