# P.R.VIMAL KANTH

"B.Tech Information Technology | Full Stack Developer"

**Github** - ash020202 | **LinkedIn** - vimalkanth | **Mail** - vimalofficial02@gmail.com | **Mobile** - 9384641042

## SUMMARY

B.Tech student with strong skills in full-stack web development, mainly using React. Experienced in building dynamic and responsive web applications with Express.js, REST API, MongoDB, and Tailwind CSS. I Enjoy working with modern frameworks and love learning new things and solving problems.

## EXPERIENCE

**Monolith Technologies |** (Web Development Intern)                                **May 2024**

- I have worked as an Full Stack Web Dev intern at MONOLITH Asia.
- Adaptable to challenging situations, where I have effectively collaborated in teams to complete tasks.
- I have experience in developing web applications using React and Angular frameworks.
- Possess strong web development skills in HTML, CSS, SCSS, JavaScript, and TypeScript.

**Nexus Info |** (Web Development Intern)                                **July - August 2024**

- I have worked as an Frontend Web Developer intern, specializing in a React/JavaScript project.
- During the project's inception, I adeptly constructed a Sign-Up/Login Page, integrating backend API endpoints for user registration, OTP verification, and dashboard access.
- In the project's culmination, I created a portfolio for a technology company, highlighting their services. This included a feedback form with submission capability and integration of Google Photos.
